Scrutiny…

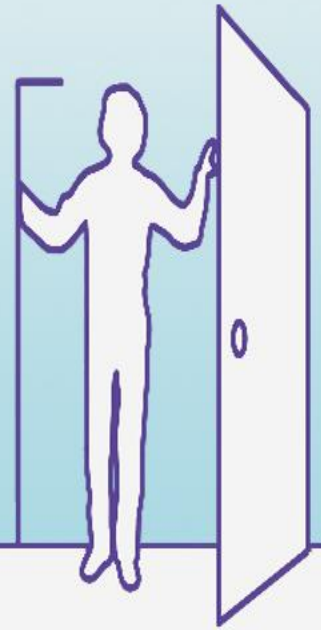
gathering & using information

Karen Perry
Head of Community Empowerment
Gill Lawson
Gateway Tenant Committee Member

Community GATEWAY Association
Developing neighbourhoods in Preston

Co-regulation at CGA

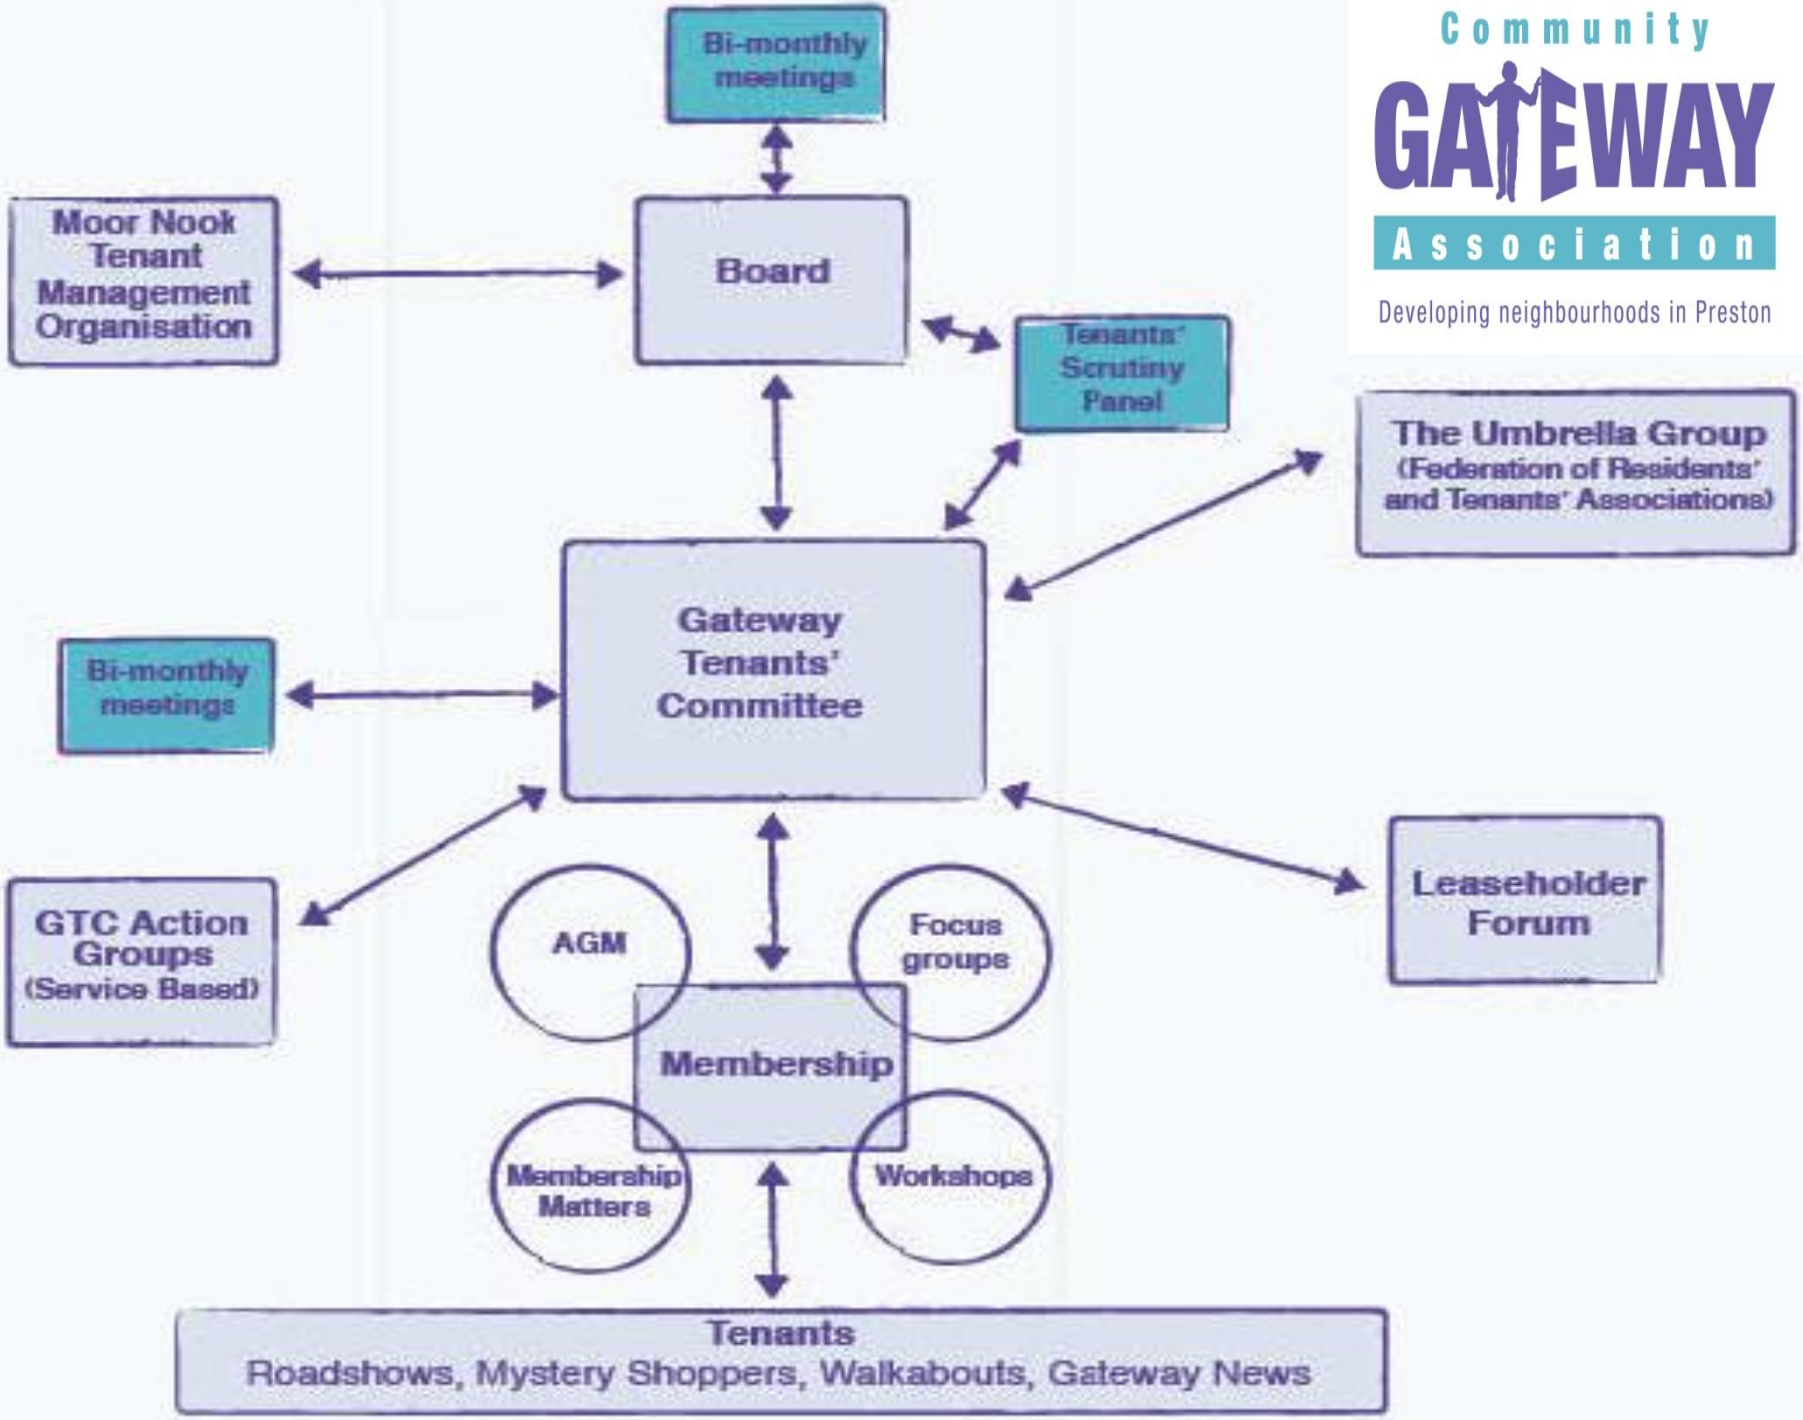
- Gateway model - rules
- Membership – residents only
- Gateway Tenant Committee – 30 elec
- GTC – meetings / action groups / scrutiny
- Board – 7 tenants / 5 independents / 3 council
- Co-regulatory champion



Community GATEWAY Association
Developing neighbourhoods in Preston

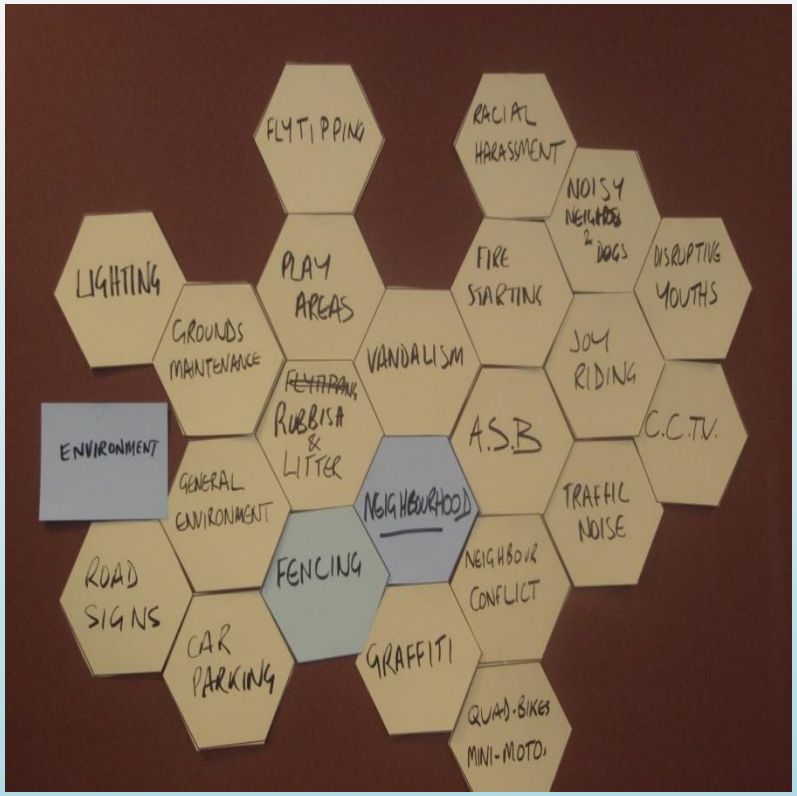
Community GATEWAY Association

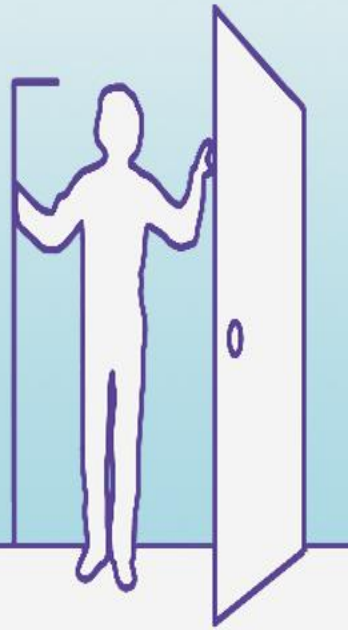
Developing neighbourhoods in Preston



Deciding what to scrutinise

- Ask the people
- Gather the facts
- Set the programme
- Realistic timetable
- Be flexible



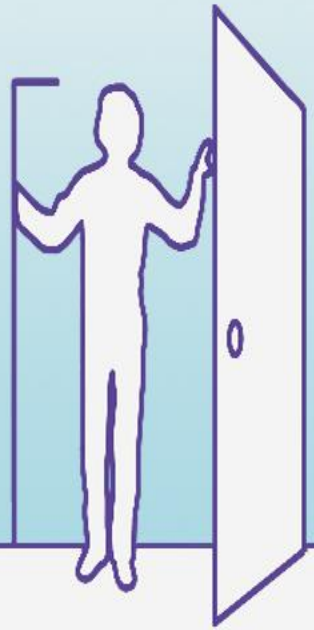


Community GATEWAY Association

Developing neighbourhoods in Preston

Analysing the information

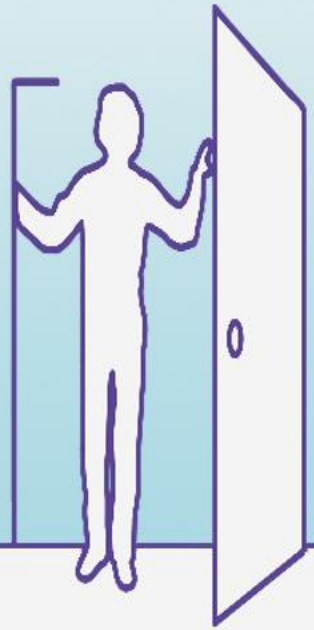
- Use the tool box
- Go fact finding
- Talk to people
- Visit estates
- Challenge data
- Feedback



Community GATEWAY Association
Developing neighbourhoods in Preston

Making best use of performance data

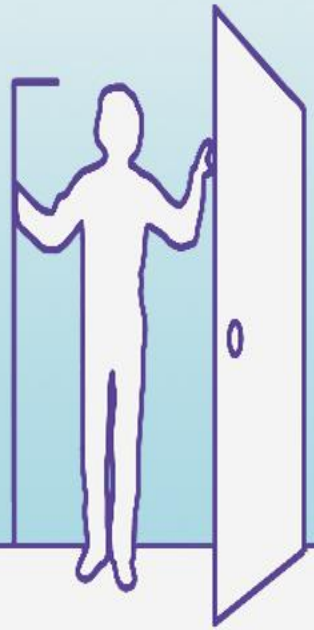
- Work with BIT
- Look at indicators
- Look at trends
- Ask questions
- Focus on key area



Community GATEWAY Association
Developing neighbourhoods in Preston

Keeping an eye on best practice

- Work with BIT
- Benchmark
- Network
- Study visits
- Co-reg group

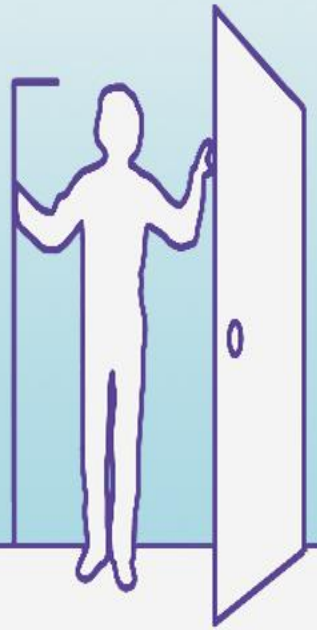


Community GATEWAY Association

Developing neighbourhoods in Preston

What's important and what isn't

- Check back on what residents are saying
- Focus on your research
- Don't get overstretched
- Maybe cutback on scope
- Don't allow 1 person to dominate



Community GATEWAY Association

Developing neighbourhoods in Preston

Scrutiny example

- Estate environment
- Talk to residents
- Focus groups
- Estate tour
- Workshops
- Develop report
- Feedback to Board

CGA SCRUTINY GROUP
RECOMMENDATIONS TO BOARD - ESTATE ENVIRONMENT

Rec. No.	Service Area	Recommendation
1.	Grounds maintenance	GTC Scrutiny Group recommends that CGA assesses the feasibility of taking the grounds maintenance service in-house when the current contract ends
2.	Grounds maintenance	Whatever the outcome of the appraisal of the options for delivering the Grounds Maintenance service, there should be greater emphasis on the treatment of trees on the estates and CGA should set out a clear strategy for this
3.	Fly-tipping	GTC Scrutiny Group recommends that CGA publicises the cost of fly-tipping to the organisation and does so in terms of what that cost equals in numbers of improvements (windows, central heating etc.)
4.	Green areas	GTC Scrutiny Group recommends that clear strategies for CGA's green areas should be articulated or created. This strategy should identify all the areas, propose possible solutions/alternative use (where necessary), identify any costs and state if there is potential to achieve this.
5.	Green areas	If the Grounds Maintenance service is taken in-house, the opportunity to address the green areas issue should be taken
